THE FIRST MARYLAND.

This Regiment Hopes That It May Go to Havana.

Norfolk, Va., Aug. 18.-Officers of the First Maryland Regiment, in camp at Fort Monroe, discredit the report that the regiment will be mustered out of service and that the Fifth Maryland Regiment will go to Havana with the Seventh Army Corps under Gen. Fitzhugh Lee.

They argue that the three months' duty which the First has seen at Fort Monroe, one of the most important posts in the country, especially fits it for garrison duty which the Seventh Corps will have to perform in the event of its going to Ha-vana. Then, too, say the officers, the First is a better regiment physically than the Fifth, and this has been demonstrated by the results of practice marches by both commands. The officers, who claim to know, say the regiment has friends in Washington, and they do not fear being mustered out of service in advance of the Pifth. Today was an unusually dull one about the camp.

I am acquainted with the case of the wife of a house painter in Brooklyn, who had the grip, and was confined to the house for three months. She was in a listless state and suffered terribly with nausea. It so happened that a friend had given some Ripans Tabules to this lady's sister who had suffered from indigestion, and as they did her so much good she thought she would try them on Mrs. Hill, feeling sure that if they did her no good they would at least do no harm. The patient was then in the hands of her physician, but soon she was so much better that her neighbors noticed the change and asked about it. She then said that she had changed her doctor, and laughingly added, my new doctor is colored-chocolate color. It seems that as soon as she began to take the Tabules, she began to mend. The nausea disappeared and she began to feel that the future still had days of sunshine in store for her.
